MAKE A PAPER BOAT

WANT MORE HELP?

Watch video by scanning or clicking QR code

PRINTING INSTRUCTIONS

You can make this boat from a plain piece of paper but if you print the next sheet on to A4 paper the guide lines will help you. Start folding the printed side of page 2 inwards so that you can't see the print to begin with.

It should look a bit like this when it's finished. Don't forget to decorate it!

This area will become the inside of the boat

DERBY - UK

You can put a boat name in the rectangular boxes

DERBY - UK

This area will become the inside of the boat
