

Kids' Activity Pack

MAKE A VILLAGE SHOP

WRITE THE NAME OF YOUR SHOP IN THE PANEL ABOVE THE DOOR AND DECORATE IT

Kids' Activity Pack

MAKE A VILLAGE SHOP

To make the village shop follow these steps...

1. Print off page 1 onto a sheet of white A4 card
2. Cut around the outline of the shop, taking care not to cut off the glue tabs shaded grey). Also cut out the roof but don't cut down the white line in the middle of the roof.
3. Ask an adult to score along each fold of the shop with a ruler and a knife
4. Apply PVA glue or a glue stick to the shaded grey tabs on the walls and floor of the shop.
5. Allow the glue to dry, once dry apply glue to the tabs on the sloping roof, then fold the ridge of the roof and place the roof on top of the shop.

Why not try...

- You can repeat this several times if you want to make a village!
- The shop should be scaled to "OO gauge" so that you could use it with other models like trees, people and trains!
- Make your own template and decorate it as you like!
